

Re-Advertised: Tender for Drilling and Equipping of Borehole in Mufumbwe District of North-Western Province, Zambia

Organization: Civil Society for Poverty Reduction (CSPR)

Location: Kalengwa Ward and Kalambo Ward, Mufumbwe District, North-Western Province, Zambia

Closing Date: Not specified – see full tender document linked below

Background Information (Re-advertised)

The Civil Society for Poverty Reduction (CSPR) is an anti-poverty civil society network dedicated to working alongside the poor to combat poverty. Since 2000, CSPR has championed the effective and meaningful participation of civil society and citizens in the formulation and monitoring of National Development Plans (NDPs), ensuring responsive pro-poor policies and enhanced public service provision. In the Social Security and Justice space, CSPR works towards a fair and equitable society where everyone has access to social security and justice, and advocates for sound fiscal management and regulatory frameworks in economic governance.

As part of the LIFT Zambia Programme, CSPR is working to improve access to sustainable and safe water in Mufumbwe District. This initiative is linked to implementation of the MI Model, which supports small-scale farmers through climate-resilient agriculture and improved livelihoods.

To strengthen the incubation hub established in Kalengwa Ward, CSPR intends to put up a solar-powered water reticulation system and two water kiosks at Kalambo Ward. The solar-powered water system will be designed to serve both domestic needs of surrounding communities and productive agricultural use, thereby enhancing water security for households and smallholder farmers.
