

# **Consultancy to Conduct Deep Diagnostics and Support Implementation of Policy, Regulatory, and Institutional Reforms to Enable Investment in Food Loss Reduction Solutions (FL-RS) in Zambia**

AGRA Zambia | Consultancy | Zambia

## **Overview**

The consulting firm shall support the Ministry of Agriculture's Technical Working Group (TWG) to undertake a rigorous, evidence-based assessment of Zambia's policy, regulatory, fiscal, market, and institutional environment for food loss reduction solutions (FL-RS), facilitate the prioritization and packaging of reforms, and provide hands-on support to Government and AGRA to initiate implementation of agreed actions. The scope of work covers both deep diagnostics and implementation support.

## **Scope of Work**

- Policy, legal, regulatory, fiscal, and market environment assessment: mapping and reviewing national policies, laws and strategies relevant to food loss reduction and post-harvest systems using a Policy Review Matrix; analyzing coherence, gaps and inconsistencies; identifying fiscal, regulatory, standards, trade and market barriers and enablers affecting investment in FL-RS.
- Institutional assessment: mapping relevant ministries, departments, agencies, regulatory bodies and coordination platforms; assessing clarity of mandates, capacity gaps, coordination arrangements, accountability mechanisms and institutional performance relevant to FL-RS.
- Stakeholder consultations and validation: engaging government, private sector, financial institutions, farmer organizations, solution providers, civil society, research institutions and development partners to gather evidence and validate findings.
- Prioritization, reform packaging, and implementation support: facilitating reform prioritization with Government and AGRA, developing implementation-ready reform packages, preparing technical notes and decision-support instruments, and providing technical backstopping during initial implementation.
- Implementation roadmap, reform tracker, and results framework: developing a sequenced roadmap, a practical reform tracker and action matrix, and a results framework with indicators and milestones for tracking progress.
- Final validation, implementation planning, and final reporting: presenting findings and prioritized reforms in a validation workshop, incorporating feedback, and submitting the final report, reform action matrix, policy brief and presentation materials.

## **Note on Submission**

The source listing for this consultancy did not include a stated submission deadline, application email, or contact details for proposal submission. Interested consulting firms should contact AGRA Zambia directly to confirm the application process, required documentation, and closing date before preparing a proposal.
