INVITATION TO TENDER

Date: 08 September 2026

Tender No.: Pc4072

TENDER FOR UPGRADE OF 4 HAND PUMPED BOREHOLE TO SOLAR POWERED WATER SCHEME - REGROW PROJECT

Background

Norwegian Church Aid (NCA) and DanChurchAid (DCA) have been active in Zambia for over two decades, and in 2011, the two organizations formalized their collaboration by establishing a Joint Country Programme (JCP). Both NCA and DCA are faith-based organizations committed to promoting global justice and providing humanitarian and development assistance to vulnerable populations, regardless of creed, race, political affiliation, or religious background. Their work spans emergency relief, long-term community development, and advocacy aimed at addressing the structural causes of poverty and inequality.

As part of their ongoing commitment to improving Water, Sanitation, and Hygiene (WASH) services in underserved communities, NCA-DCA plans to upgrade **four (4) existing hand-pumped boreholes into solar powered mechanized water supply systems across Gwembe, Kazungula, and Chifunabuli Districts**. These upgrades aim to enhance the reliability, efficiency, and sustainability of water supply systems to meet growing domestic, sanitation, and productive water needs and small-scale irrigation. The intervention will contribute to improved public health, increased access to safe water, and strengthened community based water management.
